Commercial Pool Installer – Join Our Team

Austin Carroll Pool Construction is seeking to hire a Commercial Pool Installer. Austin Carroll Pool Construction is Canada's most versatile commercial pool builder with experience in all styles of pool construction and pool refurbishments. We have a team of highly trained professionals who are specialized in the installation, renovation and service of concrete and modular pool systems. We offer continuous training for our installation staff and the ability to succeed and grow in our ever-changing industry.

We are seeking an individual with a varied set of skills in construction, who also possesses the ability and drive to improve and learn skills continuously. Though not mandatory, construction site experience along with qualifications below are an asset.

Job Description

- Perform tasks involving physical labour at construction sites
- Wear proper PPE as required by specific job site, and carry appropriate Safety Certificates
- Understand and adhere to the rule and regulations of the Health & Safety Manual
- Follow and execute GC safety requirements on site, such as safety meetings, mandatory coordination meetings and required paperwork
- Follow proper installation procedures as instructed
- Complete daily job reports
- Submit weekly time sheet
- Clean and maintain site area daily
- Maintain shop organization by keeping parts and equipment in their place, reporting low inventory, replacing tools after use, and performing general housekeeping

Qualifications and Skills:

- Knowledge of materials, methods and tools involved in the construction of a swimming pool
- Knowledge of carpentry, machining, welding and mechanical systems
- Ability to work in a team environment
- Good time management and multi task skills

Salary / Wage to be determined based on experience and industry standards
